Bereavement Services

The staff at Brightmoor Hospice are dedicated to helping you with issues related to grief, loss, and adjustment before and after the death of a loved one. We offer traditional counseling as well as programs for all ages which address a wide range of bereavement experiences. You don't have to experience loss or grief alone. We are here to help you. From answering your most basic questions to providing ongoing emotional support, we have the experience, training, and heartfelt commitment to help you as you navigate the grief process. All of our social workers and chaplains are also Certified Grief Counselors.

We offer a wide variety of bereavement services including:

- One-On-One Support: We are available for counseling, companionship or conversation- whether in person, by phone, e-mail or postal correspondence. We are available from the time of death to 13 months after your loved one's death and longer if needed.

- You will receive periodic contact from our staff and volunteers via cards and phone calls for 13 months after your loved ones passing.

- Monthly Support Groups: We offer monthly support groups for families and friends who have lost a loved one. These groups are open to the community and free of charge. The group emphasizes discussion and participation and focuses on various aspects of the grief and healing process.

- Memorial Events: Brightmoor pays tribute to our loved ones who have passed by hosting memorial services throughout the year. During these services patient names are read and families are invited to share a special photo of their loved one.

- Written Resources: We have a library of materials available that can help you understand and follow your journey through grief and bereavement.
